PROJECTS

JARVIS. I'm currently building Jarvis Mark-1, Mark-2 a real-life AI assistant inspired by Iron Man's Jarvis. As a student of Artificial Intelligence and Machine Learning, I love pushing boundaries in coding and automation. My projects blend AI with day-to-day life—automating tasks, creating intelligent systems, and building tools that help people save time and work smarter.

Classes landing page. Build a landing page for 2-3 classes to promote there classes Digitally.

Camera Paglu. Building a python program to watch phone watch to my laptop.

Voice Access. Create a web page like old google assiant named it Voice Access.

Portfolio. Create a portfolio website of my work.

EXTRA-CURRICULAR ACTIVITIES

- Actively makes video on [Youtube](#), [Instagram](#) post my daily life mini vlog & post my all project & DSA Question on [Twitter](#).
