ABOUT ME

Building practical Technology solutions through problem-solving, innovative thinking, and continuous learning.

Passionate about Artificial Intelligence, Machine Learning, and Engineering, with a focus on creating real-world applications and improving technical skills.

EDUCATION

R.T.P. Hindi High School & Jr. College | Jun 2013 - May 2025

SSC & HSC

Vasantdada Patil Pratishthan's College of Engineering and visual arts | Sept 2025-Continue

BTech CSE(AIML)

I am pursuing bachelor's in engineering degree in Artificial intelligence and Machine learning and currently I am in Second Year.

WORK EXPERIENCE

Pothole Detection | Computer Vision

Developed a computer-vision-based system to detect potholes from road images/video, applying image processing and deep-learning techniques to identify road-surface damage.

Jarvis – AI Voice Assistant | Generative AI

Built an intelligent voice-based assistant integrating AI and automation to understand user commands, provide responses, and perform useful tasks.

National Academy Website | FrontEnd Development

Designed and developed the official National Academy website with responsive UI, course information, admission inquiry, academic process, results, testimonials, and contact functionality.
